Medtronic

Aortic Education

We design and deliver proficiency-based continued Medical Education to enhance knowledge and skills of endovascular teams to safely treat aortic patients.

Want to learn more? Access the EVAR Essentials Learning Pathway page

Learning Opportunities

Join us at DKKS on 24th October to expand your Aortic knowledge.

VR Operating Room

Participate in virtual reality training to learn **procedural flow and cooperation** as a team. Drop by our workshop.

Hands-on Simulator

Practice and enhance your implant procedure and **deployment skills**. Drop by our workshop

AI Powered Sizing and Planning

Sign up to one of our 2 sizing and planning workshops.

Learn how we now use AI in our sizing and planning service to **predict long term outcomes** of Endurant.
